

Background

Section 39 of the [School Act](#) describes the Minister’s authority to prescribe educational programs and courses of study. This is accomplished in the *Guide to Education* and the *Provincial Programs of Study*.

The *Guide to Education* is updated regularly by the Ministry of Education and is the primary source of direction regarding program planning for schools.

The *Programs of Study* prescribe the curriculum for each subject and grade level.

According to section 11 of the *School Act*, a Board may authorize the use of French (or any other language) as the language of instruction. The Board exercises this authority by offering French Immersion programs in selected Division schools. These schools will offer programs consistent with the requirements described fully in the *Guide to Education* and in the *Handbook for French Immersion Administrators*.

The *School Act* (sections 21(1) and 21(4)) states:

“...an alternative program is an education program that:
(a) emphasizes a particular language, culture, religion or subject-matter, or
(b) uses a particular teaching philosophy,
but is not a special education program...”

The Board exercises this authority by authorizing an alternative non-denominational Christian program in one Division school.

Religious instruction may be offered at the discretion of the school board under section 50 of the *School Act*.

Procedures:

1. Provincial Programs

- 1.1. School Principals will comply with the direction provided by the *Guide to Education* in the development of programs for Division schools.
- 1.2. School Principals will annually assess the instructional time provided for programs within their schools as part of their planning process and in preparation of school calendars (see [AP 60-05 School Year Calendar](#), [AP 60-06 School Day](#) and [AP 60-07 School Education Planning and Reporting](#)).
- 1.3. Teachers will use the *Programs of Study* as the source of program rationale, philosophy, general and specific learner outcomes.
- 1.4. The procedure for the selection of Instructional Resources is described in [AP 60-17 Instructional Resources](#).

- 1.5. School Principals will regularly and consistently interact with teachers to ensure the appropriate delivery of *Programs of Study*.
- 1.6. School compliance to the above will be reviewed through [AP 60-07 School Education Planning and Reporting](#).

2. Alternate Programs

2.1. French Immersion (FI)

- 2.1.1 The Board supports the provision of FI programs in Barrhead Composite High School, Barrhead Elementary School, R. F. Staples Secondary School, and Westlock Elementary School. These schools therefore may have dual programs: an English program and a FI program.
- 2.1.2. FI programs will follow the *Programs of Study* and will reflect the expectations described in the *Guide to Education*.
- 2.1.3 School Principals can reference the *Handbook for French Immersion Administrators* for guidance in programming for FI.
- 2.1.4 The viability of dual programs will be reassessed on an annual basis by the School Principal in consultation with the School Councils. Viability of the FI program will be based on the following criteria:
 - 2.1.4.1 Population of students enrolled in FI must be sufficient to ensure financial viability of the program without negatively impacting the English program; as determined by the School Principal in consultation with the Secretary Treasurer, the Superintendent and the School Council Chair.
 - Combined grade level class groups do not exceed two grade levels in a single classroom grouping.
 - 2.1.4.2 Ability to effectively meet the FI programming requirements as defined in the *Guide to Education*. (The required amount of instruction in French varies from grade to grade.)
 - Availability of teachers trained and skilled in the delivery of instruction primarily in French.
 - 2.1.4.3 Availability of school financial resources to support maintenance of student and teacher instructional resources.
 - 2.1.4.4 Schools with FI programs will distribute a letter to all families with students registered in a FI program, each year, within two to three weeks of the start of the school year. This letter describes the conditions for FI programming in the Division. It is attached as reference [Form 6-01-A](#).
 - 2.1.4.5 Schools with FI programs will conduct 'exit interviews' with the students and parents when a student chooses not to enroll in the program for the next year. In the interest of maintaining program quality, the interview will focus on three items:
 - What elements of the FI program have you seen as valuable, effective or otherwise being a positive experience?
 - What elements of the FI program could be improved? And what suggestions do you have for improvement?
 - What are your primary reasons for choosing not to enroll in FI programs in the subsequent year?

The information from these interviews will be collected by the School Principal and submitted to the Superintendent or designate for compilation and filing. The data will inform decision making regarding program development and implementation. See [Form 6-01-B](#).

- 2.1.5 Parents who live outside the attendance boundaries of the four designated dual-program schools and want their children to be enrolled in FI programs can choose to enter into a Parent Provided Transportation Agreement with the Division as described in [AP 50-01 Requesting a School Other Than Designated School](#).

2.2. French as a Second Language (FSL) (and International Language and Culture Courses)

- 2.2.1 Division schools can choose to offer FSL programs in their school where and when interest warrants, and when the school has the expertise on staff to do so.
- 2.2.2 FSL programs in elementary school start in grade 4 and use the 9 year program. High schools can offer the 3 year program beginning in grade 10, and/or the final three years of the 9 year program. School Principals should refer to the *Guide to Education* for specific direction for programming for FSL.
- 2.2.3 International Language and Culture courses may be offered where and when interest warrants, and when the school has the expertise on staff to do so. Refer to the *Guide to Education* for specific directions.
