

Background

A student file is created when a student registers at a school that is recognized by Alberta Education. Cumulative records and other student and school records pertaining to a student are the sole property of Pembina Hills Public Schools.

An official cumulative record must be maintained for each student in the Division. Each file will be reviewed annually and updated as necessary in order to provide an accurate record of the student's education. All information in student records shall be treated as confidential and accessible only to the student and his/her parents/guardians and school division staff/contractors who are directly involved with the student's program. In addition to the right of access, the student and/or his parent have a right to a professional interpretation of the data contained in an official record, if such is required. No teacher or school system employee shall give information from a child's record to anyone outside the school staff unless they have first obtained permission of the School Principal or designate. Information pertaining to marks and attendance may be made available to prospective employers or Alberta Education personnel if permission is granted by the student's parents/guardian (if the student is under sixteen (16) years of age) or the student or the parent/guardian if the student is sixteen (16) years of age or older, or the student if the student is eighteen (18) years of age. Student's marks shall be forwarded to Alberta Education as required.

The student file remains at the school the student is attending until they graduate and then it is transferred to Student Services for storage until the Student Record Regulation retention requirement is met.

Refer to the Student Record Regulation for what can and can not be included in the Student Cumulative (Cum) File.
