

The courses in ADLC's online learning system may each look a bit different, but what makes them easy to use is the navigation bar for all courses is basically the same.

The navigation bar has everything you need for your course.

The **Content** button contains the **Table of Contents**, which has a list of everything you'll need to learn.

The **Resources** button leads to handy tools like a **Calendar**, the course **Glossary**, and a place you can store your **Private Files**.

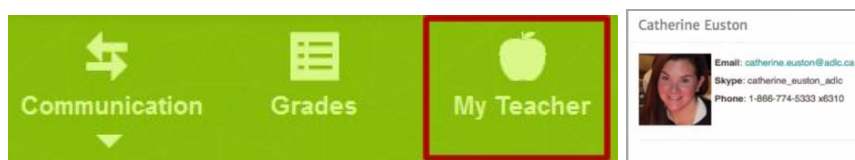

The **Communication** button will take you to course **News** or discussion **Forums**.

The **Grades** button is all about keeping track of your grades.

And last but not least, you can always get help by using the **My Teacher** button.

So what are you waiting for? Start exploring ADLC's navigation bar right now!
